

FireNetOnline Sponsorship

The importance of fire protection to the safety and well being of society is beyond dispute. Communities across the nation and the world at large are working to codify their fire protection efforts. Consequently fire professionals from all the various disciplines are scrambling to stay current with technology and code issues.

WHAT WE DO: FireNetOnline (FNO) is a one-stop source for fire protection and safety information. It is fire professionals who actually provide and publish the materials that appear on FNO, and so our organization's motto is "By fire professionals for fire professionals."

PARTNERSHIP: FNO is looking for partners within the fire protection industry who are willing to financially sponsor FNO activities. In return your banner, contact information, product/service, and routine advertisements will be carried and promoted during the year. More importantly, FNO is looking to align itself with firms, organizations, and individuals of integrity within the industry.

THE MISSION: The FireNetOnline mission is to provide a platform through which fire professionals can network and share information. The website is comprised of a password-protected discussion board and document section. Our homepage can be found at www.FireNetOnline.com.

THE MEMBERSHIP: Currently FNO has 112 members from across the world who work in a variety of disciplines within the fire protection arena. Our members represent fire alarm detection companies, code enforcement, fire administration, and fire safety. They work for private and public entities, such as fire alarm companies, consulting firms, educational institutions, and local/state governmental entities.

COST OF SPONSORSHIP: The cost of sponsorship depends on two factors: 1) your budget, and 2) the level of exposure desired over a 12-month period. You set the sponsorship fee and FNO will provide a detailed, customized report on what our organization will do for you over the next year. A FireNetOnline sponsorship distinguishes you and your company as leaders in the fire protection industry.

ACCESS TO FNO: If you are interested in learning more about FNO and what our organization can do for you, please contact me, Al Colombo, at 330-324-6852. You can also send an e-Mail to al.colombo@firenetonline.com or write me at P.O. Box 30076, East Canton, Ohio 44730, USA.

Kind Regards,
Al Colombo, Director
